INFALLIBLE YEAST POWDERS.

Scientific men, who thoroughly understand the subject, concur with great unanimity in saying that nothing exerts such a deleterious influence against health as bad bread. The remedy is at hand in SIMPSON'S INFALLIBLE YEAST POWDERS, the value of which is thus certified:

RALEIGH, Aug. 24, 1866.

I have tested the Yeast Powders you manufacture and can recommend them as vastly superior to any other ever used by me. In addition to the lightness and sweetness of the bread, the powders are economical, as one-third the lard usually required will answer in the making of either loaf bread or biscuit. For pastries and cakes they are excellent.

VIRGINIA A. ORR.

The price of these powders per package is 25 cts. or 75 cts. per pound. To be had at Wm. Simpson's Confectionary Store, Fayetteville Street, Raleigh, N. C.

RALEIGH, Aug. 28, 1866.

This is to certify that I have used Mr. Simpson's Yeast Powders and find them to be superior to any I have ever used. After trying them once no housekeeper will be satisfied without them.

WM. E. PELL, SEATON GALES. } Editors.

Saturday Evening, Nov. 24, 1866.

Consolidation of Railroads.

The consolidation of the Atlantic, N. C. and Western Extension Railroads, is a question which will likely be discussed for some time in this State. A similar discussion has engaged the attention of the people of Virginia, and has not yet been concluded.

We are entirely committed to the extension and completion of the Railroad system of North Carolina. It suggests to our mind the only feasible means of developing and rendering available the large resources of the State. Without them, our lands must remain untilled and unimproved, our immense water power measurably useless, and the mining and mineral wealth of the State undeveloped. While therefore, we are anxious that all who have sufficient public spirit to embark their capital in the construction of Railroads, shall be fully re-imbursed for their outlay, we are the more anxious that they shall obtain their profits more from the contributions of the Railroads themselves to the general progress and prosperity of the State, which in time will most certainly repay them, than from any expertness in Railroad management, which looks only to the profits of the Stockholders, at the sacrifice of the general good.

Nor can we regard it as a wise procedure, which discards the idea that our road system is a general one, looking to the welfare and interest of the whole State, rather than the building up of any particular or special interest to the neglect of others. Whatever tends to the improvement and expansion of any one section or town or city in our own State, in the channel of legitimate trade, we shall at all times most heartily endorse and industriously labor to promote. We *prefer* in all matters, all things else being equal, the progress and advancement of North Carolina and our towns and cities, to those of other States. Whether this can be done by the *consolidation* of our railroads, is to our mind very questionable.

The laws of trade are as well defined and as irreversible almost, as the laws of nature. Commerce between mankind cannot be bound by social or political or even moral ties. People all over the world will buy or barter, where it is most to their advantage. Even parental or fraternal bonds are not high enough nor strong enough, to prevent human nature overleaping or breaking through them to gain a decided advantage. Hence, all over the world, if a man wants to secure the trade of another, or of a community, he must convince the parties, first, that he can make it their special interest to do so. No legal, social, or moral inducements or restraints can *force* trade in a particular channel, until the public are convinced that it is their *interest* to go in that channel. Offer your inducements, throw out your enchantments, raise up your barriers to make it even a *necessity* to trade in a certain direction, yet as soon as the public are convinced its interest lies in another direction, human interest and human ingenuity will find some means to remove the barrier.

It is not a matter we think to be controverted, that it is to the manifest interest of all our Railroads and all our people, that the closest connection possible should be formed with all of them. Their interests are more or less mutual. Hence all our Roads should be constructed at their *termini* and at every feeder and offshoot, so that freight and travel shall pass as easily as possible from one to the other. Indeed, it would be best for all in the State, that their tracks should be the same and that the rolling stock of each should be at a reasonable remuneration to the owner, transferable from one to the other, at the instance and benefit of the public.

What is meant by the *consolidation* of the roads, however, is quite a different thing. It contemplates the blending of the interests of two or more companies into one, to be managed as one road, owned by the same stockholders and managed by the same officers.—While we have no prejudice on the subject, and are ready to see our views canvassed and exploded if they are unsound, yet until convinced to the contrary, we are of opinion that the difficulties in the way are two formidable to be overcome. We will simply suggest a few:

1. The consolidation scheme is simply one for the decision of each and all the stockholders on the several roads. So long as there is one dissentient, we apprehend, a peg cannot be legally moved.

2. The Legislature can do nothing, not an iota affecting the chartered rights of either company, until those charters are either violated or surrendered.

3. Ordinarily, short Roads we apprehend, are better managed and more economically worked, than Roads which are too long to be properly supervised.

4. If the object is to *force* trade in a particular channel, without superior advantages to the public, *it cannot be done.* Make it to the interest of the public to direct their trade in a particular channel, and it will go there without any special management to secure it.

Scrip of Agricultural College.

The proper disposition of the land-scrip granted to the States by Congress, for the establishment of an Agricultural and Mechanical College in this State, rests with the Legislature. It is likely to excite much interest in the State, and perhaps ought to be very fully discussed before a decision should be made. We are anxious that the donation of Congress should be wisely disposed of, to effect the greatest good to the greatest number, promotive of the glory and prosperity of the whole State. For this reason we invite sober and temperate articles in our columns in its discussion, and today give a place to "Equity."

The bill to repeal the present franchise law of Tennessee and give suffrage to negroes, was laid on the table in the lower House of the Legislature of that State, on Monday, by a vote of 39 to 29.

A Penitentiary.

This subject has been mooted in this State, more or less, for many years. Whenever it has been submitted to the people for their dissent or approval, it has been rejected. Whether their prejudices against such an institution have been modified by the great change in our social *status* or by the conviction that our penal code is too barbarous or too rigid for this *enlightened* age, remains to be determined by our Legislature.

When Mr. Gash urged it upon the attention of the General Assembly at its last session, we then thought, that no harm could arise from submitting the question again to the people, rather than embarrass the counties by the workhouse system, as a means of cheapening the burden of crime. We had no confidence in the utility or practicability of that scheme, either as an economical resort or as promising any thing as a corrective to society. We think so still, and, hence, we endorse the suggestions of the Executive in regard to a Penitentiary.

The chief objection urged heretofore, we believe, has been that it interfered with artizans and mechanics in their business. The objection never struck us as having any force. The truth is, North Carolina never had one fourth enough thoroughly bred and skilled mechanics. It is her poverty in this respect that renders her so entirely dependent upon Northern work-shops and Northern penitentiaries, for three fourths of what she uses of the products of mechanical labor. In this regard, we believe a Penitentiary, properly conducted, would greatly enhance the number of skilled mechanics, and would soon make us, with a properly regulated apprenticeship system, *producers* in the mechanic arts, rather than dependents upon the superior skill of mechanical labor in the North.

As a means of discipline and as a correction of crime, we have no more confidence in the Penitentiary system, than we have in our present harsh discipline of public whipping, branding, &c. None of them *cure* crime, nor do but little in restraining it. Offenders are too rotten at the foundation, when crime becomes common and merits the severer punishments, to be cured in this way. Culprits of this class have generally passed beyond the reach of correction, and hence, for the highest offences, should be removed from society by the office of the hangman, or for the lesser, yet seriously demoralizing offences, by the bolts and bars of a Penitentiary.

The true medicine and only preventive of crime are the teachings and discipline of the family, the schools and the churches of the land. The *twig* may be bent, but the fruitless or poisonous tree must be cut down and taken out of the way. Hence, the demands of society require not so much that gross offences be frequently and severely punished, as the removal of the offender from the temptations and opportunities of vice, where he cannot infect society, but where he *may* reform at the least expense and injury to the public.

"The Right Spirit."

Under the above caption we find the following in the Baltimore *Sun* of yesterday.

While the political doctors are engaged in trying to concoct one scheme or other for pretended Southern "settlement," the people of the South are more and more letting them alone in their work, and are turning their attention rightly to practical matters of the greatest importance to themselves. The leading agriculturallsts of Virginia are in convention at Richmond with a view to organize a State society, and extending and improving their productions, securing labor and bringing the largest area of land into cultivation. The dividing up the farms is strongly advocated in leading journals.

In North Carolina, also, a State Agricultural Society is to be organized on the 27th instant, at Raleigh, and in New Orleans a great Mechanics' and Agricultural Fair commenced on the 20th, and will be continued to the 29th. All steamers return passengers and goods free, even as far North as Cairo and St. Louis; also, as many as twelve railroads, some of which extended into the Northwest. A fine example of religious toleration, also, is shown in the fair, the services of the Roman Catholic officials having been succeeded by those of the Episcopal clergy. The enterprising Southern men are also moving for a more varied industry, and seek to manufacture their cotton to a larger extent within the region of its production. This is the right spirit, and Northern capital must seek to aid and profit in the work.

THE DIRECT TAX ALL COLLECTED IN NORTH CAROLINA.—The final accounts of the commission appointed to collect the United States direct tax in North Carolina have been submitted to the Treasury Department. Over $400,000 have been collected, at a small expense to the Government. The resignation of the commissioners, Messrs. John R. French, H. Potter, Jr., and E. H. Sears, has been accepted, to take effect December 1, by which time it is expected that most, if not all, the commissions for collecting the direct tax will be closed.—*National Intelligencer.*

SINKING OF A FLAT OF CORN.—A flat of new unshelled corn, belonging to Dr. T. B. Carr, was sunk in the dock at the foot of Princess Street, on Wednesday night, by the tide receding and leaving one end upon the shore. The corn was but slightly damaged, and the unfortunate position in which the flat was found yesterday morning was no doubt owing to negligence.—*Wil. Journal.*

At a meeting of the Wilmington Library Association, held in the Library Room at the City Hall last evening, the following officers were elected for the ensuing year:

President—Dr. W. G. Thomas.
Vice President—Alfred Martin.
Directors—Rev. A. A. Watson, Col. W. L. Smith, Hon. Geo. Davis, Dr. Thos. F. Wood, Rev. W. M. Young, Hon. A. H. VanBokelen, Col. Robert Strange.—*Wil. Journal.*

LARGE ARRIVALS OF COTTON.—Yesterday 467 bales of cotton arrived in this city. The largest consignment, 271 bales, was to Ricks, Hill & Co. Most of the staple was from North Carolina via Railroad and Canal.—*Norfolk Virginian.*

THE SENTINEL.

Saturday Evening, Nov. 24, 1866.

LOCAL DEPARTMENT.

NEW ADVERTISEMENTS.—Lieut. G. Van. S. Aiken advertises an Auction sale of Government property to take place in this city on the 5th of December.

MAMMOTH POTATOE.—We have heard of large Potatoes, but one was brought to our office this morning that excels any thing we have ever seen. It is of the *yam* species. It weighed 18 pounds when dug, and measures 30 inches in circumference length-wise and 23 inches round it. It was grown by John Neal, Esq., of Chatham county. What do you think of *that* Mr. *Journal* of Wilmington? Talk of "negro ehokers," what do you call the above?

BUFF APPLES.—We are much indebted to our friend N. Kelsey, Esq., the member from Madison, for several of those fine apples, the growth of the Western Counties. They are equal we judge to any apples in the world. Our friends can have a view of them on our table, but further this deponent sayeth not.

Ulysses Hand, Esq., Senator elect from Rockingham county, we regret to learn, has been detained by illness at home. We learn that he is expected to be here by Monday.

Wilmington and Weldon Rail Road.

At the annual meeting of the Stockholders of the Wilmington and Weldon R. R. held in Wilmington on the 21st. inst., the following officers were elected for the ensuing year: Hon. R. R. Bridgers, President, Messrs. P. K. Dickinson, S. D. Wallace, W. A. Wright, Eli Murray, Alfred Martin, Jno. Everett and A. H. Van. Bokkelin were elected.

Virginia Agricultural Society.

A large and highly intelligent delegation of the members of the Virginia Agricultural Convention has been in session several days in Richmond. The discussions have been able and important and, we hope, will result in much good.

We hope the Convention of the North Carolina Agricultural Society in this city next Tuesday, will be well attended, and that the industrial interests of the State will be fully discussed.

THE EYE AND EAR.—We refer our readers to the advertisement of Dr. Gardner, Oculist and Aurist, (formerly of London,) now of New York, who will be at the EXCHANGE HOTEL, on Saturday, Nov. 24th., and remain until Thursday, the 29th. After that time, he will visit Raleigh monthly, of which due notice will be given.—The Dr. comes highly recommended by the press of the different cities he has visited. Those who require medical or surgical aid for defective sight or hearing should avail themselves of the opportunity now offered for obtaining relief, by consulting Dr. Gardner.

For the Sentinel.

Agricultural College---Public Lands.

Messrs. Editors:—His Excellency the Governor recommends that the public lands donated by Congress for the Agricultural and Mechanical improvement of the State, should be given to the University, and that these departments should be added to its present curriculum of instruction. The recommendation may be objectionable for two reasons,

First, Such departments are generally considered unusual, uncongenial and misplaced in such connection. The tone of life essential to a *University* would by no means promote the purposes of the donation, and would most probably result in sinking the University to a mere College, or in the entire neglect of all practical application in the departments intended to be promoted by Congress.

Second. The Constitution does not require the Legislature to sustain the University exclusively. Any number of Institutions deemed necessary, might be promoted by the same authority. The University belongs legally to the whole State, but is practically used by a small number of the citizens. All helped to build it and all help to pay the donation given by the last Legislature, yet the majority of those who send their sons to schools of high grade, for reasons satisfactory to themselves, prefer some other Institution.—There are east of the Blue Ridge and Pedee river 30,000 members of the Methodist Church embraced in the North Carolina Conference. These Methodists have built up Trinity College, and at the late Conference in Fayetteville, resolved *unanimously* to use all proper means to sustain it.—Trinity has received no pecuniary aid since the surrender, and is in full operation, with nearly as many students as the University. The libraries, apparatus, and museum are very little inferior, if any, to that at Chapel Hill. Now if these public lands are given to the University it will be, practically, depriving the large citizenship that favors Trinity of any benefit from them. The same remarks would apply largely to the Baptists and Presbyterians. Is such a course either just or advisable? Why not do as many other States have?—divide the lands among the Colleges. The lands judiciously managed, and equally divided with Chapel Hill, Trinity, Davidson and Wake Forest, will do more good than if given to any *one*, or than it used to establish a new Institution. There is neither legal nor moral reason why it should not be done. To say the University is not denominational, is to have more regard to the letter of the law than to the reality. The University ought to be cherished, and so ought the other Colleges. They are all public institutions doing good service to the State.

EQUITY.

MESSAGE OF GOVERNOR OF FLORIDA.

AUGUSTA, Ga., Nov. 20.—Governor Marvin, of Florida, in a message to the Legislature of that State, takes ground against the constitutional amendment, presenting at length the reasons which call for the opposition of the people of the State to its ratification. He also alludes to the conflict between the military authorities and the President's policy, as shown by the interference of the former with the civil tribunals, in disregard of the President's proclamation, and setting up special judicial tribunals in violation of the United States constitution.

Rev. S. S. Bryant, of Danville, has been again licensed as a minister of the Episcopal Methodist Church, and preached in Danville last Sunday night, at the Presbyterian Church, to a very large congregation.

For the Sentinel.

"Jottings by the Way."

The Editors of the Sentinel:

GENTLEMEN:—I have recently passed over a portion of the old County of Stokes. This was once a large County, embracing what is now Forsyth, having for the County seat the town of Germanton. When the division took place, each portion took new County seats, leaving Germanton "in the cold." It may be that it was for the best that it was divided, but Germanton certainly presents a sad scene. Its Court House has been turned into a stable, and, of course, real estate has gone very low down. Would it not be justice to lay off a new county, by slicing off pieces of adjoining counties, and giving Germanton its old Court House again?

Stokes abounds in minerals of very valuable kinds.

IRON ORE.

There are large and rich beds of iron ore in the northern part of the county. These have been worked to some extent. A company of twelve, mostly from Richmond, carried on the business of melting ore during the war. But since the close of the war little or nothing has been done, although the machinery is there.

These works are near the Dan river, and ten miles below them, pig iron can be floated to Danville, from which place it could be taken to market. The whole world wants iron, and it brings a good price now. Idle capital is an eyesore to all good citizens.

LIME.

Lime abounds over a large part of this county. Indeed, I presume there is a vein of limestone in N. C. extending from the Northern part of Stokes County, irregularly, to Cherokee.

Some of the largest kilns in the county, at present, are owned by Mr. Bolejack, near Germanton, and Mr. Martin, near Danbury, the county seat of Stokes. The lime is of a superior kind, but unfortunately inconvenient to market.

Among the many things that were defeated by the war, was a railway project from High Point through this lime country, which has very probably been indefinitely postponed by the construction of the Piedmont railway.

FLEXIBLE SANDSTONE.

This wonderful phase of nature *abounds* within a few miles of Danbury. The specimens here are the most perceptible I have ever seen in any cabinet. A piece, the size of one's hand, will bend very considerably; whilst a piece two feet long will bend almost as if it were vegetable.

BITUMINOUS COAL

Is found in Stokes, so I am informed, by Mr. Golding, one of the oldest men in the county.—Experiments, he tells me, have been made with it, and it has been found to contain combustible gas in good proportion. I regret that I did not see this deposit, but I had a good account of it.

PETRIFIED TREES.

The road from Germanton to Salem *abounds* in parts of petrified trees, that lie scattered over the surface. The grain, and bark, and forms of the trees are well defined, and even the knots of broken limbs, are plainly discoverable.

This country will afford a field for our able Geologist, whenever he reaches it. He labors now under serious difficulties, the loss of old maps in the removal of State papers, and other impediments. The survey is almost like one begun *de novo*.

The writer of this can bear testimony, from personal observation, to remarkable application and devotion on the part of Prof. Kerr, having travelled with him, and witnessed his industry and enthusiasm in his labors.

His character, qualifications and manner of going about his business, have excited, in my mind, the highest hopes I have ever yet entertained, of a thorough development of the chemical, geological and botanical resources of this State.

DRIED FRUIT.

I have just passed over the field from which have been drawn a large proportion of that great yield of dried fruit that has attracted the public attention to such an extent, this season. It has distributed hundreds of thousands of dollars among the poor women and children of this section, and carried comfort to many a home.

I think few things would be of greater benefit, in its way, at this time, than this, *to induce our people to devote more time and attention to the little things* in the line of produce. I know a man who lives within a few miles of N. Y. city, who once sold cucumbers to the amount of *eleven hundred dollars*, from a moderate piece of ground. It may be said that he had a good market. True, but he sold to a pickling firm, "Wells & Provost," who sent these pickles South, for us to eat. Their pickling-house resembled a tan-yard. The cucumbers were dumped from carts into vat-looking pits, and the business was carried on on a very large scale.

Our people are struggling with heavy losses, and they are like pioneers in a new country; and *everything* that can be made available, ought to be wrought up into the most profitable and marketable shape. And the little proceeds are certainly serviceable to us, especially to such as have no other resources. It is only by economizing in little things, that those whose means are feeble can regain their losses. Especially, let poor women and children receive the fullest encouragement, in all their efforts at industry; and let them "despise not the day of small things."

SALEM.

As I passed through Winston, Salem and Waughtown, all close together, I cannot but regret that the future had not been clearly enough discerned by the old settlers, to have induced them to have put all three places into one town. Compact into one place, it would have made quite a large town, and of course would have commanded more attention than it does now.—The same defect is visible in the plan of High Point. Each man builds at random, and a stranger passes through the place ignorant of its really important proportions. The Thomasvillians are wiser people.

I visited the famous manufacturing establishment of the Messrs. Fries of this place. It is the oldest woolen factory in the State. It makes its own cotton warp; and confines itself to the manufacture of Jeans, a substantial and useful line of serviceable goods. It runs 528 spindles, 26 looms, consumes 300 bales of Cotton, and 85,000 lbs of wool a year, and gives employment to 75 hands.

Dr. Gould, of the U. S. Coast survey before the war said that he once desired and assistant in his travels; and had introduced to him one by the name of Fries. He at once made arrangements with Fries, because he thought it would be refreshing in Summer to call him *Freeze*, and comforting in Winter to him *Fries*. The Messrs. Fries adapt themselves to the seasons with equal facility; and are now making a very suitable line of warm winter Jeans; and next spring will be ready with their stock of lighter goods. Merchants, keep your money among your customers as much as you can.

The time honored Female School of this place, is flourishing, as it justly deserves to be. It has undergone a change in its presidency, having now at its head Dr. Grunert, whose abilities and adaptedness to his post are well known.

A New and Grand Epoch in Medicine!

DR. MAGGIEL is the founder of a new Medical System! The quantitarians, whose vast internal doses enfeeble the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and cures the most virulent sores with a box or so of his wonderful and all healing Salve. These two great specifics of the Doctor are fast superseding all the stereotyped nostrums of the day. Extraordinary cures by Maggiel's Pills and Salve have opened the eyes of the public to the inefficiency of the (so-called) remedies of others, and upon which people have so long blindly depended. Maggil's Pills are not of the class that are swallowed by the dozen, and of which every box full taken creates an absolute necessity for another. One or two of Maggiel's Pills suffices to place the bowels in perfect order, tone the stomach, create an appetite, and render the spirits light and buoyant! There is no griping, and no reaction in the form of constipation. If the liver is affected, its functions are restored; and if the nervous system is feeble, it is invigorated. This last quality makes the medicines very desirable for the wants of delicate females. Ulcerous and eruptive diseases are literally extinguished by the disinfectant power of Maggiel's Salve. In fact, it is announced that **Maggiel's Billious, Dyspeptic and Diarrhoea Pills** cure where all others fail. While for Burns, Scalds, Chilblains, Cuts and all abrasions of the skin, **Maggiel's Salve** is infallible. Sold by J. MAGGIEL, 11 Pine St., New York, and all Druggists, at 25 cts. per box.

A New Era In Medicine

☞ Let the Suffering and Diseased read the following.

☞ Let all who have been given up by Doctors, and spoken of as incurable, read the following.

☞ Let all who can believe facts and can have faith in evidence, read the following:

Know all men by these presents, That on this, the Twentieth day of June, in the year of our Lord, One Thousand Eight Hundred and Sixty-Six, personally came Joseph Haydock to me, known as such, and being duly sworn, deposed as follows: That he is the sole general agent for the United States and dependencies thereof, for preparations or medicines known as MAGGIEL'S PILLS and SALVE, and that the following certificates are verbatim copies to the best of his knowledge and belief.

JAMES SMEITER,
L. S. Notary Public,
Wall Street, New York.

June 1, 1866.

DR. MAGGIEL:—I take my pen to write you of my great relief and that the awful pain in my side has left me at last—thanks to your medicine. Oh, doctor, how thankful I am that I can get some sleep. I can never write it enough. I thank you again and again, and am sure that you are really the friend of all sufferers. I could not help writing to you, and hope you will not take it amiss.

JAMES MYERS,
116 Avenue D.

This is to certify that I was discharged from the army with Chronic Diarrhœa, and have been cured by Dr. Maggiel's Pills.

WILSON HARVEY,
New York, April 7, 1865. 27 Pitt Street.

The following is an interesting case of a man employed in an Iron Foundry, who, in pouring melted iron into a flask that was damp and wet, caused an explosion. The melted iron was thrown around and on him in a perfect shower, and he was burnt dreadfully. The following certificate was given to me by him about eight weeks after the accident.

New York, Jan. 11, 1866.

My name is Jacob Hardy; I am an Iron Founder; I was badly burnt by hot iron in November last; my burns healed, but I had a running sore on my leg that would not heal; I tried Maggiel's Salve, and it cured me in a few weeks. This is all true, and any body can now see me at Jackson's Iron Works, 2nd Avenue.

J. HARDY,
119 Georick Street.

Extract from Various Letters:

"I had no appetite; Maggiel's Pills gave me a hearty one."

"Your Pills are marvelous."

"I send for another box, and keep them in the house."

"Dr. Maggiel has cured my headache that was chronic."

"I gave half of one of your pills to my horse for cholera morbus. The dear little thing got well in a day."

"My nausea of a morning is now cured."

"Your box of Maggiel's Salve cured me of noises in the head. I rubbed some of your Salve behind my ears and the noise left."

"Send me two boxes; I want one for a poor family."

"I enclose a dollar; your price is twenty-five cents, but the medicine to me is worth a dollar."

"Send me five boxes of your pills."

"Let me have three boxes of your Salve by return mail."

I have over 200 such Testimonals

As this, but want of space compels me to conclude

ROANOKE

LAND FOR SALE.

AS Attorney, I shall sell, on the premises, for Cash, ON THE 26TH. DAY OF NOVEMBER, 1866, At Public Auction, to the highest bidder, the celebrated plantation of

MR. T. P. BURGWYN, KNOWN AS

ALVESTON,

CONTAINING

1,200 Acres, More or Less,

lying in Occoneechie Neck, Northampton county, North Carolina.

This is one of the most beautiful plantations in the whole country, and is surpassed in fertility and productiveness by none in North Carolina. Most of it is high table land, a red soil, cleared and in a high state of cultivation. It is admirably adapted to the production of

COTTON, WHEAT, & INDIAN CORN.

It is well stocked with negro laborers, the former slaves of the estate, who are attached to the place, and can be easily induced to remain by a prudent purchaser. It also has on it several very good white tenants,—good and honest farmers—and is in much demand by this class of tenants. The Barns and Laborers' Houses are very good.

THE MANSION HOUSE

is unusually good. It is situated on the Roanoke river, [illegible] the head of navigation, and in the immediate neighborhood of four railroads leading to Norfolk, Petersburg, Wilmington, and Raleigh.

A plantation of equal value has not been offered for sale in Northampton within the memory of the oldest inhabitant.
